OK thank you Linda. That should work out then. We will give some thought about where best to set it up. Should I communicate this to [REDACTED]?

**Subject:** RE: Update

Hello Linda,

I talked with Dave Koenig, and in order for [REDACTED] (or anyone on campus) to work on it, the editing equipment that Mike currently has would need to come back to campus. I'm not sure what the arrangement was, but if the plan is for the equipment to be returned by the start of the fall, that would work well. Sounds as if the equipment used in the Media Center would not be compatible with the type of digital files that are being used.

Can you confirm what the timeline is for the equipment being returned?

thanks,  
Sue
